## ABOUT ME

I am a Web Developer, Ethical Hacker, and Graphics Designer with experience delivering 100+ projects across web development, UI/UX design, and digital solutions. I specialize in building secure, modern, and user-centered websites that balance performance, functionality, and visual design.

With a strong background in full-stack development and UI/UX design, I apply a security-first mindset, focusing on penetration testing, reverse engineering, and secure coding practices. I am passionate about continuous learning and contributing to impactful projects in web development, cybersecurity, and secure digital design.
